Welcome the 25th Anniversary of NCBC:

Recognizing our Past
To Solve the Challenges of the Future

Lyn Gomes, PE, CCP - kW Engineering
Jesse Sycuro, PE, CCP - Brookfield GIS
AIA Quality Assurance

The Building Commissioning Association is a Registered Provider with The American Institute of Architects Continuing Education Systems (AIA/CES). Credit(s) earned on completion of this program will be reported to AIA/CES for AIA members. Certificates of the Completion for both AIA members and non-AIA members are available upon request.

This program is registered with AIA/CES for continuing professional education. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the AIA of any material of construction or any method or manner of handling, using, distributing, or dealing in any material or product.

Questions related to specific materials, methods, and services will be addressed at the conclusion of this presentation.
Learning Objectives

1. Outline the history, progress and future of the commissioning profession.
2. Connect energy policy to changes in the practice of commissioning.
3. Explain how drivers for energy policy and building commissioning can affect each other.
4. Describe the benefits of the US Department of Energy’s Smart Energy Analytic Campaign.
Making Commissioning Business As Usual
25 Years of NCBC
Challenging the status quo

Making Commissioning Business as Usual

Commoditization of Commissioning

Commissioning Certification

Who Performs Commissioning

Evolving Technology and Its Role in Commissioning
